PART II
NARRATIVE SUMMARY

From 1 to 30 December, the Battalion (-) continued in its mission to defend the Cam Lo Artillery Base and Cam Lo Bridge positions in the Ninth Marines AO. Routine activities consisted of security patrols, ambushes, Dye Marker construction and measures to ensure security and control of traffic on MSR 561 between the Cam Lo Artillery Base and Con Thien. The battalion was also assigned the responsibility for Dye Marker construction at the C-3 position. An extensive program was initiated to sandbag and apply back fill and burster layers to bunkers in accordance with the Dye Marker Plan specifications.

On 5 December India Company returned to the battalion after being OPCON to the 11th Engineer Battalion since 27 November 67. The Battalion (-) on 11 December conducted a sweep and clear operation which was conducted in the area of Van Quat Xa and Van Ba Thung vicinity of coordinates YD 110610. Although enemy ammunition and equipment were found, contact with the enemy was not made. On 12 December Mike Company was chopped from OPCON 3/3 to OPCON 3/4 to assist that unit in manning their lines and then returned the following day. The remainder of the month the battalion participated in several joint operations with ARVN and IF units, without gaining contact with the enemy. On 26 December Mike Company (Rein) changed from OPCON 3/3 to OPCON 12th Marines and Kilo Company (Rein) returned to OPCON 3/3 from OPCON 12th Marines. On the 29th and 30th of December the Battalion (-) left the Cam Lo Artillery Base (C-3) and Cam Lo Bridge (C-3A) to occupy the A-3 position. The movement was by vehicle to a point south of Gio Linh, from which point a tactical move to the A-3 position was conducted. The move was completed the afternoon of 30 December and negative enemy contact was made. The battalion established a daily routine of heavy patrolling and ambushes to ensure security of the A-3 position. Also an extensive program was initiated to sandbag and back fill all bunkers in accordance with the Dye Marker Plan specifications.

The battalion established a civic action program at the C-3 and C-3A positions consisting of Med Caps and the hiring of Vietnamese people to fill sandbags for bulker and oil. Also on Christmas Day a party was held for a large number of children of Cam Thi village.

PART III

SEQUENTIAL LISTING OF SIGNIFICANT EVENTS1. Combat Missions Assigned:

a. Basic Mission: To conduct missions in assigned area of operations in accordance with 3d Mar Div Operation Order 59-67 (Kentucky).

b. On 11 December 1967, 3d Battalion, 3d Marines mission was to seize Objectives 1, 2, 3, and 5 and to be prepared to search adjacent villages on order; destroy all fortifications encountered; provide assistance and security for attached Hoi Chan personnel by assisting in search operations and taking custody of identified VCS. Reference: Battalion Frag Order 60-67.

c. On 29 and 30 December, the Battalion () (Rein) displaced to A-3 and assumed control of that position from 1/3. On assumption of the A-3 position conduct reconnaissance and screening operations and provide security for engineer elements. Reference: Battalion Frag Order 61-67.

2. Significant Operations Conducted.

a. On 11 December 1967 the Battalion () (Rein) left the Cam Lo Artillery Base (C-3) and Cam Lo Bridge (C-3A) positions and proceeded west towards Battalion Objectives 1, 2, 3 and 5. On seizure of Objectives 1, 2, and 3 and, on order, Lima Company () (Rein) secured Objective 5 and established a blocking position oriented to the north and west to cover India Company's sweep south. On order, India Company commenced sweep and clear operations south passing forward of the blocking forces. Enemy ordnance and equipment were uncovered but contact with the enemy was negative. The battalion returned to C-3 and C-3A positions at 1600H.

b. On 13 December 1967, Lima Company left the Cam Lo Bridge position and established a blocking position in vicinity of grid square YD1861 in conjunction with PF and RF operations to the east. There was negative enemy contact.

c. On 20 December 1967, India Company and a Command Group departed the C-3 position to assist 3/4 as a blocking force while 3/4 made a sweep south. Negative enemy contact was made.

d. On 22 December 1967, India Company departed C-3 position to establish a blocking position at YD 163610 in conjunction with an ARVN sweep to the east. On 23 December 1967, Lima Company left the Cam Lo Bridge (C-3A) and commenced movement to Battalion Objective #2

at coordinates TM 165605 also in conjunction with the ARVN sweep to the east. At 1500H, both units returned to their respective positions. Negative enemy contact was made during the operation.

e. On 29 December 1967, Lima and India Companies and Command Group Alpha departed Cam Lo Artillery Base (C-3) and the Cam Lo Bridge (C-3A) positions for movement to the A-3 position. The move was made by vehicle to a point south of Gio Linh, and by tactical march into A-3. On 30 December 1967, Kilo Company and Command Group Bravo left the C-3 and C-3A positions for their move to A-3. Their move to A-3 was completed in the same manner as the first units. Both movements were uneventful and with negative enemy contact.

3. Casualties Inflicted on the Enemy.

The battalion inflicted no casualties on the enemy during the month of December.

4. Casualties Sustained.

a. Name of Surgeon: Lt Walter F. DRYSDALE, MC USNR

b. Significant Events:

(1) On 1 December two members of Kilo Company were killed when their bunker caved in trapping them underneath.

(2) On 13 December one member of Lima Company was wounded when he stepped on a mine.

(3) On 28 December one member of India Company was killed by small arms fire while flying in a helicopter from C-3 to A-3 position.

7. Equipment. On 27 and 28 December the battalion replaced all M-16 rifles with a new modified M-16 rifle. The replacement of weapons were exchanged on a rifle for rifle basis by a mobile contact team.

8. Logistics.

a. Supply.

(1) General. While at the C-3 and C-3A positions the battalion maintained an adequate supply of all classes of supply. A daily resupply maintained it at this level, plus providing the battalion with mail and GP packs, when available. There were no problems encountered in getting the battalion resupplied. On 29 December the battalion moved to the A-3 position. At the present time is in the process of building up its stocks to 5 days for Class I and V items. A daily resupply by helicopter is the only means this battalion has to transport its gear and personnel to A-3. The weather has been the only problem of resupplying the battalion and has had a large effect on being able to get helicopters out to resupply that position.

(2) Class I - While at the C-3 and C-3A positions the battalion maintained a 7 day supply of C-rations. A daily resupply maintained it at that level. At the A-3 position the battalion is building up its stocks to a five day supply and a daily resupply by helicopter to maintain it at that level.

(3) Class II - There still remains a shortage in jungle utilities, sizes small and X-small; jungle boots sizes, 8W, 9R, and 10W.

(4) Class III - No problems encountered in keeping an adequate supply of POL on hand.

(5) Class IV - Due to operation Dye Marker, no problems have been encountered in obtaining Class IV items.

(6) Class V - The battalion supply of Class V items was adequate and a daily resupply maintained it at a minimum level of BA plus 5 days while at the Cam Lo Artillery Base. The battalion is in the process of building up its stocks of Class V at our new position at A-3.

b. Motor Transport.

(1) The battalions present status is considered adequate on M7412's (Mules) for current operations but our present status on the

M422A1 (Mites) is below operational level.

- (a) Breakdown of M274A2 (Mules)
 (1) T/E QTY 30 - Operational 30

- (b) Breakdown of M422A1 (Mites)
 (1) T/E QTY - 20
 (2) On hand - 13
 (3) 2nd Echelon Maintenance - 0
 (4) 3rd Echelon Maintenance - 7
 (5) Code "X" - 5

(c) One M-37B1 (PC) is in 2nd echelon maintenance awaiting spare parts. One MRC - 87 Code "X"ed, one MRC - 63 Code "X"ed, and one M-170 (jeep ambulance) in 3rd echelon maintenance. This battalion is without a jeep ambulance at this time.

(2) Ninth Motor Transport Battalion trucks are utilized for surface runs. An average of 20 to 25 tons is hauled daily over a distance of 15 miles. Organic transportation is utilized for courier runs, base transportation and trash runs. At the present time, all our transportation is handled by helicopter while at our new position at 1-3.

c. Engineer Assistance.

(1) 11th Engineers commenced clearing an area for the emplacement of a mine field and wire obstacles according to Operation Dye Marker specifications at the C-3 position. Engineer support required to assist in construction of Dye Marker bunkers has been informally requested through appropriate channels.

d. Maintenance Problems.

(1) A shortage still exists on carburetors for the M422A1 (Mites). A shortage also exists for spark plugs for the M274A2 (Mules). These parts have been on order for a period of 90 days.

e. Conclusion.

(1) At the end of the month the battalion maintained the following status:

<u>Item</u>	<u>T/E</u>	<u>OH</u>	<u>Operational</u>	<u>FISU-1 (3d Bn)</u>

9. Civic Action.

Civic action for the month of December was concentrated on Med Caps, traffic control along MSR 561 and the hiring of Vietnamese laborers for the filling of sandbags for Dye Marker bunkers.

Nine Med Caps were held during the month and a total of 836 Vietnamese people were treated for various minor ailments. Two locations have been established for regular Med Caps within the Cam Thi area. The battalion surgeon held a Med Cap each Tuesday and Thursday and gave assistance to the District Health Chief. At YD 148607, a permanent shelter was erected for Med Caps to be held on Wednesday and Saturday of each week.

During the first half of the month, Vietnamese labor was hired to fill sandbags that were needed at the C-3 position. However the program was discontinued for the lack of oil and bulgar with which to pay the laborers.

The biggest problem encountered during this reporting period remained the control of traffic between Route 9 and C-3 along MSR 561. Two serious incidents involving U.S. military vehicles resulted in the deaths of two Vietnamese people. The parent organizations involved were notified and they took action as necessary. The battalion has posted speed signs along the MSR and the road is patrolled periodically. A permanent MP patrol has been recommended for that section of the MSR.

Other incidents for this period of a minor nature involved the engineers accidental uncovering of a cemetery and damage to a civilian boat by an external load dropped accidentally by a helicopter.

Both incidents were resolved promptly at the time of the incident to the satisfaction of all concerned.

On Christmas Day a small party was held at the Cam Thi village market place at YD 147602. Cookies, candy and kool aid were served to 400 Vietnamese children. The reception was friendly and hospitable.

10. Administration.

a. An awards ceremony was held on the 25th of December. The below listed medals were presented to members of this battalion by Brigadier General M TIGER, Assistant Commander, 3d Marine Division:

1	18th Award of Air Medal
1	Air Medal
14	Purple Hearts

b. A total of 7 Court Martials were held during December: 5 SPOM and 2 SCM. No Court Martials are pending. Five Battalion Commander's Office Hours were completed and none are pending. There were five Company Commander's Office Hours completed and four are pending.

c. Special Services provided stationery during the month of December. Free beer was provided on 28 December. Various Christmas gifts received from the American Red Cross and the USO, were distributed to members of the battalion by Special Services.

d. Post Exchange services were available to all companies of the battalion during the regular Dong Ha exchange runs to C-3 and Gio Linh during the month of December.

e. Liberty was not authorized during this period.

f. During the month one officer and 75 enlisted Marines rotated to CONUS. 5 Officers and 41 enlisted were transferred within the regiment or division. 23 enlisted Marines were transferred as a result of medical evacuation.

11. Personnel

a. GAINS: 3 USMC Off; 254 USMC Enl; 8 USN Off; 14 USN Enl

b. LOSSES: 4 USMC Off; 142 USMC Enl; 0 USN Off; 5 USN Enl

e. Emergency leave for the month of December: 1 USMC Officer, 2 USMC enlisted. There were no Humanitarian Transfers during the month of December. Twice/thrice wounded or reassigned outside of RVN due to father/brother in country: 5 USMC enlisted.

f. There were no Hardship Discharges applied for during the past month. None are pending.

g. One Administrative Discharge is pending.

h. The R&R Program continues to be a major morale factor within this command. There were 31 In-Country and 68 Out of Country R&R quotas used during this reporting period.

i. Morale is considered to be excellent to outstanding.

j. Postal services during the month of December has been excellent, with 3 to 5 mail pick-ups per day from the Post Office in Dong Ha. Mail was broken down into each company and delivered to the forward echelons the same day it was picked up.

12. Intelligence.

During the month of December there were numerous sightings of enemy troops and intelligence reports from Vietnamese villagers. On 3 and 4 December there were a total of 5 NVA bodies recovered by the battalion in the Cam Lo River and it was reported from the District Headquarters that villagers found six more bodies. All the bodies had wounds and bruises on the face and head. The battalion surgeon reported that the bodies died of these wounds and not of drowning. Papers and clothes found on the bodies confirmed that they were NVA. What had started as a rumor and later confirmed by the District Headquarters of Cam Lo was that villagers further up the river had beaten the soldiers to death and had thrown their bodies into the river.

On 11 December, three companies swept the western portion of the Battalions A.O. The sweep was conducted with the support of a Psychological Warfare Armed Propaganda Team from the Quang Tri Chieu Hoi center. A company of RF's from the District Headquarters of Cam Lo was also moved to the battalions southern boundary as a blocking force.

During the sweep India Company uncovered a shelter which was well concealed from ground and air observation. The Armed Propaganda Team was used to search the shelter and surrounding area and recovered three weapons and an assortment of enemy ordnance and equipment. Approximately 100 meters from the shelter the A.P.T. located and disarmed a booby trapped mine.

There was one mine and one booby trap incident during the reporting period. On 13 December a Marine from Lima Company stepped on a mine at coordinates YD 166616 and on 23 December two Vietnamese boys were injured by a booby trap at coordinates YD 165617. Both the mine and booby trap could not be identified. Also both incidents occurred near the village of Cam Vu on a known infiltration route.

Many of the enemy sightings during the month of December were in the areas adjacent to the 3/3 AO and could not be exploited by the battalion. On 21 December, a 3/3 Kit Carson Scout reported that he received information from a villager that the NVA crossed the Cam Lo River at YD 175608 and were asking for details on the Cam Lo Bridge position and CAP units to the south.

On 28 December a helicopter received automatic weapons fire from grid square YD 1860. One Marine on a 3/3 advance party to A-3 was killed.

An increase in enemy sightings to the northwest, northeast and southeast indicate that the enemy is actively reconitering the area and sometimes uses civilians for this purpose. Sightings increased in frequency and unit sizes increased also towards the end of the month.

13. Communications.

a. General. During the month of December the Communications Section ran the ~~wire~~ and radio systems necessary for the battalion to operate. At the Cam Lo Artillery Base there were an increased number of radio nets for the Communication Section to guard. The Communications Section also operated three SB-22's and had overheard all the internal CP wire. In late December the battalion moved to A-3 maintaining communications between the advance party, battalion and the battalion rear as much as possible. At A-3 an extensive rewiring program was initiated.

b. Training. The battalion is continually cross-training wire and radio people as they enter the Communications Section. Also several communications classes were held in the Battalion NCO School by the communications personnel. In late December the platoon held a four day extensive wire course for two members of each rifle company.

c. Problem Areas. Personnel in the 2542 and 2511 occupational fields are becoming critical. Tape antennas and bases for the PRC-25 continue to be in short supply and replacement for Code "X"ed, PRC-25 radios are still hard to obtain.

d. Equipment Status. The battalion has received two PRC-25's from the Dye Marker stocks in addition to the wire equipment received last month. The following is a list of major combat equipment that is not operationally ready:

(1)	5 - TA-312	Telephone
(2)	8 - PRC-25	Radio Set
(3)	2 - PRC-41	Radio Set
(4)	1 - MEC-83	Radio Jeep
(5)	1 - MEC-109	Radio Jeep
(6)	3 - GRA-39	Local Remote for PRC-25

14. Weather. The weather for December was generally cool and fair with sporadic rains at the first part of the month and increasing in frequency toward the end of the month. The average high temperature was 76 degrees with an average low of 65 degrees. The normal humidity was 86% with 12.61 inches of rain recorded. The wind was generally from the north at an average speed of 9 knots. Visibility averaged 8 miles.

15. Fire Support.

a. During the month of December the majority of missions fired were of a practice nature, suspected enemy positions, and suspected enemy observation posts. The live fire missions that came through the battalion were relays from a CMC unit south of the Battalions AO.

On 29 December the battalion moved from the Cam Lo Artillery Base and Cam Lo Bridge to the A-3 position. Missions fired at the new position consisted of close defensive fires with the remainder of missions being practice in nature.

b. Problem Areas. There were no problem areas during the month of December.

16. Air Support

a. During the month of December there was a limited use of air support. Air contributions by the First Marine Air Wing consisted of medical evacuations, logistic and troop helicopter lifts, recon overflights, aerial observation and TPQ - 10 missions.

b. Recon overflights and aerial observation aircraft were used by the battalion while conducting operations from the Cam Lo positions.

c. Marine medical evacuation helicopters were used to med evac wounded civilians from the Cam Lo village.

d. During the battalions move to the A-3 position transport helicopters were utilized to move troops and equipment. Helicopters continued to be used to resupply this position.

17. Activities/Deactivations/Redesignations. None

18. Training Report. During the month of December two NCO School classes were held at the C-3 position, approximately six to seven days in duration. Approximately 40 Corporals and L/Cpls attended the courses of instruction. It was planned to conduct more classes but due to operational commitments and planned move to A-3 position it was not practicable to continue the school.

A copy of the two NCO Schools Training Schedules is enclosed in Part IV of the chronology.

The companies conducted daily training in basic military subjects. Subjects stressed were patrolling, map and compass reading, radio procedures and forward observer procedures.

On 27 and 28 December the battalion recieved new M-16 rifles and immediately conducted familiarization firing and zeroing of weapons prior to planned move to A-3. Also in late December a wire school was held for ten selected men from the rifle companies.

1. Situation.

a. Enemy Forces. An estimated enemy platoon NVA/VC operates in the general vicinity of Quat Xa and Van Ba Thang. It is also believed that a larger NVA unit up to battalion size in strength has operated to the north-west of Quat Xa in the vicinity of YD 083613.

All of the villages north of the Cam Lo River between grid lines 09 and 12 have been ordered vacated by the District Chief. Villages on the south side of the river still maintain family shrines, cemeteries etc. in this

area and frequently return to the area to maintain their houses, gardens and to conduct worship. Civilians encountered in this area will be detained as VCS and turned over to the District Chief for questioning.

It is further known that enemy forces in the area establish positions at night near the river to avoid H&I fires and return to the more heavily vegetated high grounds during daylight hours.

Friendly villagers will not be found in the above area during hours of darkness.

b. Friendly Forces.

(1) Ninth Marines MO remains the same; Operation Kentucky continues. Third Bn. Fourth Marines to our north continues patrol activity south to the G3 grid line.

(2) One PF Company, (to be assigned) under the OPCON of the Cam Lo District Chief will secure Objective #4 and establish a blocking position not later than H+4.

(3) CAP #4 will provide security for one section of mortars (5/3) to be employed at YD 117589.

(4) W/2/12 and 7/4/12 will be in direct support (see annex B).

(5) Fixed wing air support will be available on call.

c. Attachments and Detachments.

(1) One platoon from I/3/4 will be OPCON from 111400H to 121700H.

(2) K/5/3 remains OPCON to 12th Marines.

(3) See Task Organization.

2. Mission.

a. Seize Objectives 1,2,3, and 5, and be prepared to search adjacent villages on order.

b. Destroy all fortifications encountered.

c. Provide assistance and security for attached Hoi Chan personnel by assisting in search operations and taking custody of identified VCS.

d. Provide security for 15th CI personnel in the accomplishment of their mission.

3. Execution.

a. Concept of Operations.

(1) Objective 1 and 2 will be seized and blocking position established prior to first light with one company (-) (Rein) each.

(2) Objective 3 will be seized by one company (-) (Rein) not later than D+4 hours.

(3) One PF Company will establish a blocking position on Objective 4 after sweeping south Quat Xa to commence at H+3½.

(4) On order, Objective 5 will be secured by the company (-) (Rein) assigned to seize Objective 1, at which time a blocking position will be established.

(5) On order, one company (-) (Rein) will commence sweep & clear operation from Objective 3 in accordance with operation overlay.

b. Lima Company. Commence movement from C-3 Bridge position at H-Hour to seize Objective 1. Upon seizure establish a blocking position oriented to cover avenues of ingress and egress to the Quat Xa area. Be prepared if necessary to support by fire PF Companies seizure of Objective 4. On order seize Objective 5 and search huts in vicinity of Quat Xa. Establish a blocking position oriented to the north and west to cover movement of India Company. Be prepared to receive and prepare one platoon from India 3/4 to assume security missions of C-3 Bridge positions on D-1.

c. Mike Company. Move at H+½ hour to secure Objective 2. Establish blocking position to cover the seizure of Objective 4 and 5 and movement of India Company during sweep operations. Retain one platoon at the C-3 position to carry out road sweep and normal security missions.

d. India Company. Move at H+1½ with 15th CI Team and Uni Chans to seize Objective 3. On order be prepared to sweep the village area as indicated on the operation overlay. Exploit propaganda capability to maximum extent during search. Provide security for the 15th CI Team in the accomplishment of assigned mission. Leave one platoon at C-3 position to assume road sweep and normal security mission as directed.

e. Shim Mortar Company. Displace one section (-) to the Cam Lo District Headquarters on D-1. At H+2 move from the District Headquarters and establish a firing position at KD 113590. Be prepared to deliver supporting fires at H+3½. Coordinate security for movement and firing positions with Cam Lo District CAC Commander. Effort will be made to conceal displacement from C-3 to District Headquarters. One section will remain in position at C-3 position and one squad at C-3 Bridge position.

f. Security Platoon India 3/4. Man defensive positions at C-3 Bridge position and associated responsibilities at H-Hour.

g. Coordinating Instructions.

- (1) Make maximum use of night observation devices.
- (2) Maneuver elements furnish security patrol to insure avenues of approach are secured and guides are furnished prior to the move.
- (3) Insure that all personnel are briefed as to the location of friendly units.
- (4) Maximum emphasis on light and noise discipline.
